The typing games module includes four different types of games designed to learn by typing, relaxing. A user-friendly help system is available at all times. Customizable settings and options are available that support multiple users. Kiran's Typing Tutor is a tool that teaches you how to write faster, offering easy to follow tutorials, tests and games. Clean looks like the user interface software may seem a bit childish. Here you can create profiles based on your username, which makes it perfect if you want to share this program with other people. Take basic lessons To get started, you can take a look at Basic Lessons in which you can learn how to Write a tutor's split and other useful information about typewriting. So, you can start Typing Practice at the beginning. Basically, you go through several lessons in which you have to correctly enter the keys displayed on the screen. It's highly recommended that you follow pictures that show which finger matches which key. Tests, games and statistics In addition, you can perform typing tests (Sentence, Point, Accounting, Coding), play typing games with the ability to increase speed (Duckling, Invaders, Bombers, Balloons) and practice typing on a digital keyboard. In addition, children can learn how to type alphabet, numbers, colors, and words. You can view the lesson number, accuracy, time, time per minute, keys per minute, errors (for encoding type tests) and progress schedule (precision, words per minute, and errors) Performance The program uses a small amount of system resources, includes a thorough help file and is easy to use for beginners. However, experts should not neglect it, especially if we are talking about programmers who want to improve their code writing skills. Small If we had to mention the downside to Kiran's Typing Tutor, it would include an interface that needs a makeover as well the fact that you can't unlock typing sounds (they can become very annoying at some point). Conclusion Conclusion Conclusion is that Kiran's Typing Tutor is an excellent tool with which you can play to improve typing ability. We recommend it to all users. Filed underLearn Typing Tutor Typing Exercise Typing Tutor Exercise Practice Download HubsKiran's Typing Privateer is part of these download collections: Typing Tutors Kiran's Typing Tugger reviewed by Elena Opris Kiran's Typing Tutor is a program that can teach you to write. By using it, you can learn to write faster and accurately. The application interface is too simple, but you can create your own profile, which you can also share with other users of the program. There are some tutorials available at Kiran's Typing Tutor to provide you with the right matching keys. Apart from watching tutorials, you can even practice writing on the same application. You'll need to enter the same keys as the screen to show you how actual typing works. Apart from learning and practicing, you can also test your abilities with this application too. You can choose different modes for testing as well. You can type paragraphs, sentences, accounting, and even coding. You can also get some of the basic idea of writing using this application. Word per minute precision and errors are some of the essential data that can be collected by using that application. Kiran's Typing Tutor is an effective typing application to provide you not only with typing basics, but also with testing equipment. MD5 checksum: E35EBD7883361295A332A06112C96F7D Supported OS in Windows 10 / Windows 8 / Windows 7 If you want to write faster and lar touch write, then you need the correct toolkit. Kiran's typing teacher fits this description very well. It ca test, teach and also play the game w with the aim of improving your typing skills. It has a clean interface with simple icons perfect for all users. You can always progress in classes because you can create your own profile and get statistics based on it. It is at this time that you will get to customize the lessons based on the areas that you find challenging when handling tools. For lessons and testsYou have at your disposal various lessons with different levels of difficulty. If you are stuck in any of the lessons, then you can choose a help file interface to run all the features with ease. It is also an illustrated presentation of how you should place your fingers to achieve the ideal speed of typing lessons. Typing tests are grouped into paragraph, sentence, accounting, inter alia duckling. If you also want to practice the number keys, then you have the right to do so at will. This is an easy application that takes up a small amount of disk space and doesn't affect your computer's performance. In addition, all test runs to demonstrate that is a worthy tool of all kinds. Kiran's Write Tutor is licensed as a PC or laptop with a 32-bit and 64-bit Windows operating system. This is in the typing category and is available to all software users as a free download.
